ANNUAL REPORT  
OF THE  
SCHOOL COMMITTEE  
OF THE  
TOWN OF SEABROOK,  
For the Year ending March 1st, 1880.

---

Again, in compliance with the law, it devolves upon your Committee to present his annual report of the condition of the common schools for consideration.

He hopes to do this in such a manner as to afford a comprehensive, fair, and unbiased exhibit ; together with suggestions for the future of such changes as will best promote the interests and welfare of the several schools.

*School Money.*—It has become a custom to act on the article in the town warrant to raise money for school purposes as a mere form, rather than to consider it a matter deserving special attention.

When we consider that \$1100, appropriated for school expenditure is so small that half of our schools receive but six months' tuition in the year, there seems to be sufficient reason for radical reform.

I would suggest the appropriation of \$1500, to be distributed among our several schools in such a way as will tend to make them of a more equal duration. I appeal to all and especially to such as have children to educate, to put forth your utmost endeavors to correct this great evil in our school system.

*Selection of Teachers.*—It would seem that this topic, which constitutes the chief staple of our school rooms should be well understood. But such is not always nor even generally the case.

The rule has been, in selecting Prudential Committees, to choose those who come first, without any regard to capacity, and in most cases not more than half of the legal voters of the district feel interest enough in the welfare of the school to attend the meeting.

In this way persons are elected to the office who do not devote enough time to the selection of teachers.

The consequence is that the first teacher who applies for a situation in nearly every case will be sure to obtain it, regardless of their inexperience or capabilities to govern.

*As a matter of course*, it is expected that the Supt. Committee will at once forward a certificate. But if it should be withheld, or he misjudges the teacher's disposition as being suitable to govern, he is at once censured.

But we think that if this question was rightly considered there should be more thought given on the part of the Prudential Committees in the selection of teachers before they are presented to the Supt. School Committee for examination.

*Change of Books.*—I would recommend to my successor a change in some of our books, for the reason that the authors have made their work so complicated that it seems almost impossible to make the study plain to the young mind. And I would particularly recommend that a change be made in our mental arithmetic, and one substituted that will tend to instruct rather than puzzle the mind of the scholar.

*Special Comments.*—Under this heading I shall take occasion to present to the public my opinion of the way our schools have been instructed. Also the progress made, with such general comments as may seem for their best good.

*General Standing of our Schools.*—The general standing of our schools for the past year has fully come up to that of the year 1879, and in many respects far excels it.

A change of teachers in some schools has had a beneficial tendency, while the introduction of new teachers of fine qualifications has also been the means of raising the standard of the schools to a condition worthy of much praise.

I am not able to say that all changes have been for the best, for I believe that in one or two instances it has been quite detrimental, and that the districts feel that their money was not well expended. One great cause that has given our schools their present good standing is the inter-

est the parents have taken in them. And we hope in the future this interest will be redoubled, and that everything will be done to make our schools compare favorably with any in the County.

### SPECIAL COMMENTS.

*District No. 1.* This school has been under the charge of Miss Lizzie M. Hardy of Hampton Falls.

Miss Hardy, although young, came to us well recommended. On account of her age we were at first doubtful whether her management would be a successful one. A conditional certificate was given her, and the school was commenced.

I am pleased to say that from the beginning to the end the school was instructed and governed in a manner which would reflect great credit on any teacher of far more experience. In deportment the school made a record which excelled any of previous years in which it has been under my notice.

*District No. 2.* The school here for the past three years has been under the management of Miss Clara E. Woodman of Kingston. It is needless for me to comment on her management further than to say that the school has been instructed by a teacher of education and ability. And the fact of her having taught this school for three successive years is sufficient evidence of the good opinion the district entertains of her as a lady and an instructress.

*District No. 3.* The first term of this school was intrusted to the care of Miss Vesta A. Beane of Newington. At my visit to this school at the commencement, I found it in every way up to the standard of her former management; but am unable to give a report of the improvement made during the term, as the Prudential Committee failed to notify me of its close, a remissness which in the future should be corrected.

During the second term the school was under the instruction of Miss May E. Odion of Portsmouth, a lady who has had considerable experience in teaching in Districts Nos. 4 and 6, in the two past years.

I can say that her former reputation has been well sustained in the case of this school, and the change made in teachers by the committee has resulted exceedingly well and is one of the few referred to at the commencement of my comments, that has helped to raise the present standing in many respects.

*District No. 4.* This school for the past year was taught by Mrs. Souther, a resident of this town.

I had no notice of the close of the first term, consequently am unable to give any report of its condition. The commencement of the second term showed but little improvement, and at its close I failed to find the school far advanced from last year.

*District No. 5.* The intermediate department of this school was fortunate in receiving the instruction of Moses Yeaton, Jr. of Portsmouth, a gentleman who has had charge of this school for the past two years. I shall consider it sufficient to say, that he presided over the best behaved and furthest advanced school in town, which is very much due to the able management it received from its instructor.

The primary department was also very fortunate in selecting the services of Miss Ellen A. Merrill of East Salisbury, Mass., a lady of fine qualifications, and one who has labored earnestly and successfully with the little scholars under her charge. This school has made wonderful improvement during the past year, and the scholars and teacher are deserving of much praise.

*District No. 6.* The first term of this school was commenced by Miss Lottie E. Thurlow of Newburyport, Mass. a graduate of Putnam Free School, a lady of unquestionable education, but on account of her lacking to a considerable extent the art of governing, and the scholars being too ready to take advantage of this failing, the school was given up, and the services of one of our townsmen, a veteran teacher, Mr. Richard L. Gove, were secured. Mr. Gove labored with the school successfully, and the closing of his labors showed the benefits that are derived from selecting a teacher of education and experience.

Respectfully submitted,

HENRY C. CHASE, SCHOOL COMMITTEE.

## OFFICERS AND TEACHERS.

SCHOOL COMMITTEE, - - - HENRY C. CHASE.

District No. 1. Amos R. Johnson, Prudential Committee. Teacher, Miss Lizzie M. Hardy of Hampton Falls.

District No. 2. Sylvester L. Brown, Prudential Committee. Teacher, Miss Clara E. Woodman of Kingston.
